MEMORANDUM

TO: Paul Doherty, ARPO
THRU: Debbie Kopsick, ARPM
FROM: Robert D. Wiggans
DATE: September 12, 1985
SUBJECT: Trip Report - 8888 Hall Street (formerly
Eastern Trucking)
TDD # R-07-8506-02A

The Region VII Ecology and Environment, Inc. Field Investigation Team (E&E/FIT) was tasked under Technical Directive Document (TDD) # R-07-8506-02A to collect soil samples from the former Eastern Trucking facility, 8888 Hall Street, St. Louis, Missouri. The purpose of the sampling was for screening of possible 2, 3, 7, 8 TCDD (Dioxin) contamination.

The sampling team, which consisted of Robert Wiggans, Mike LaBuda, William Oberle, John Dillon, and William Kwoka, travelled to St. Louis, Missouri, on July 15, 1985. Sampling activities began on July 16, 1985. Daniel J. Wilson, City of St. Louis Division of Health was also on site to observe the sampling activities.

A total of ten (10) onsite discrete soil samples 0-2", one (1) composite dust sample, one (1) composite sweep sample, and two (2) duplicate soil samples were collected. A single background sample was also collected in front of the Medium Security Facility along Hall Street. See Table 1 for a listing of samples collected and their locations.

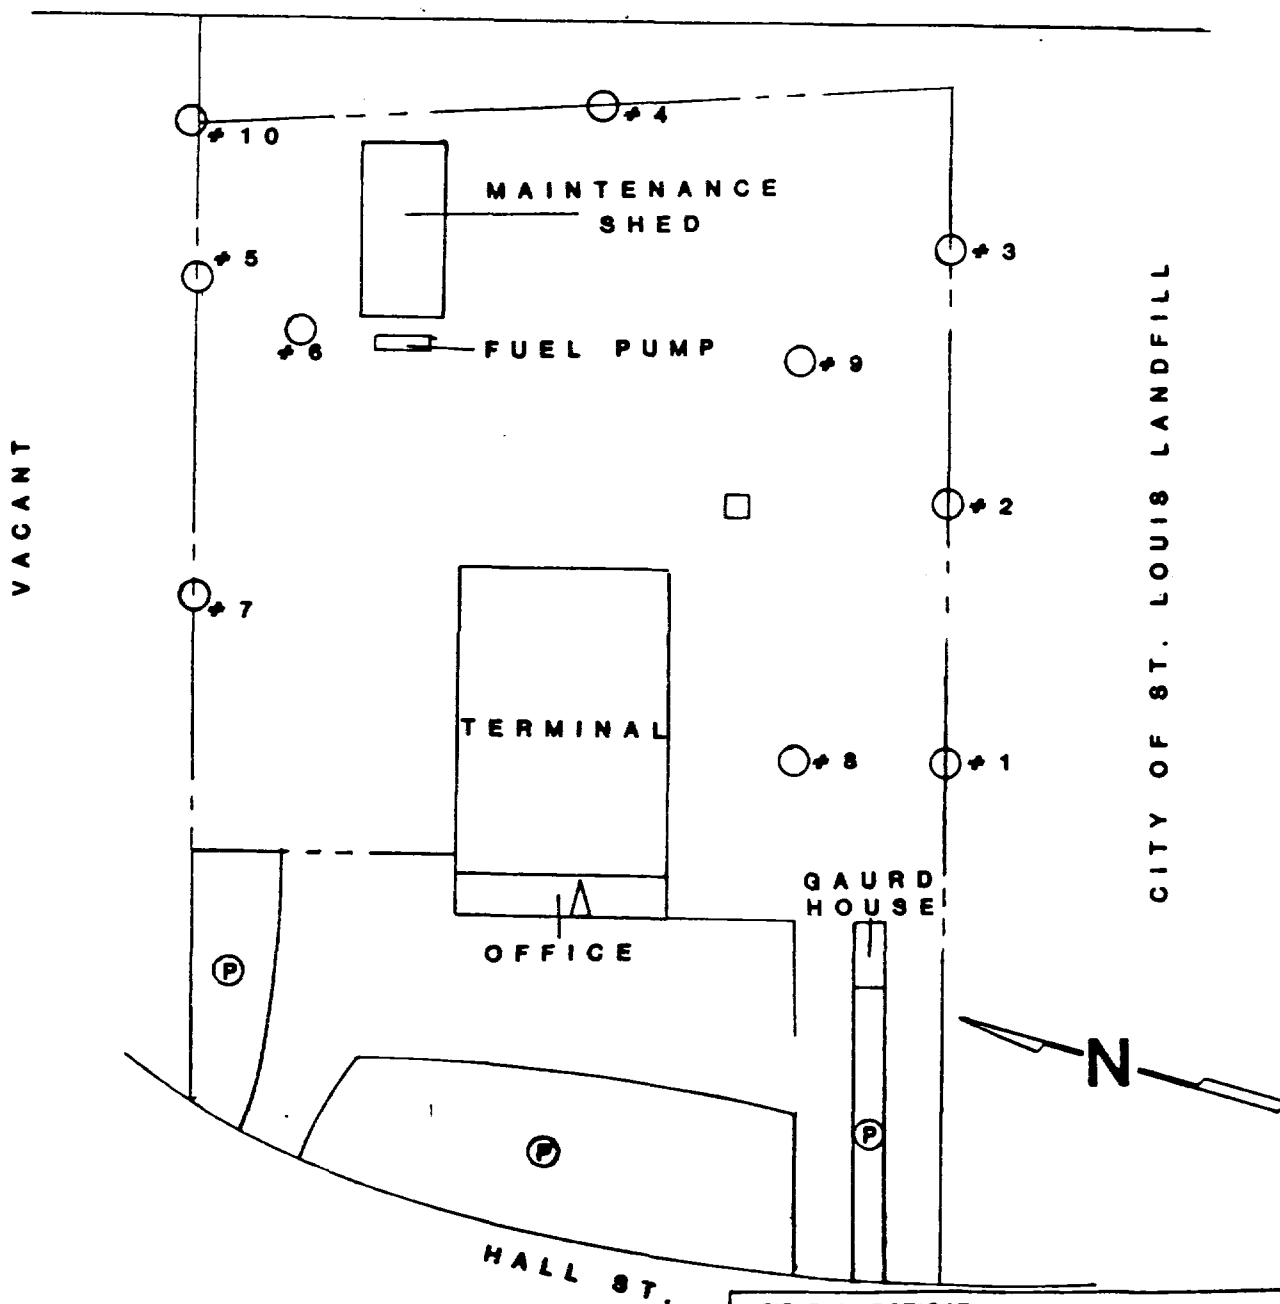

All samples were relinquished to the U.S. EPA Laboratory in Kansas City, Kansas on July 19, 1985 for shipment to the contract lab for analysis.
